PREFERRED PARTNER PROGRAM
TEAM SALAMANDER

MEET WITH THE BEST

Salamander and Crestron join forces so your teams can collaborate easily. As leaders in their categories, the two manufacturers work together so you can deploy the same high-tech solution to every meeting, whether it's a one-on-one between team managers, mid-size huddles with small groups or full-blown mega-meetings with hundreds attending in different countries.

Because you can use the same technology – you'll save time, labor and money.

Salamander Designs manufactures premium quality furniture that's engineered to make today's electronics, technology and people work and live better. Salamander's expert design team and build-to-order formula serve a wide range of markets, including the audiophile, luxury residential and commercial customers of all sizes and categories.

With offices across the US and in every corner of the globe, **Crestron** is the undisputed world leader in control, communication and building/enterprise management systems. Their four decades of expertise extends to AV distribution, lighting control, GUI design software, wireless presentation systems, home security systems, dynamic control surfaces, speakers, motorized shades and collaborative technologies.

THE BEST TECHNOLOGY FROM THE BEST IN THE BUSINESS.

WE TAKE THE LABOR OUT OF COLLABORATION.

- Systems that connect people across one room – or across the globe
- Joint solutions that readily move with your organization
- Turnkey technology and furniture designs to suit your needs
- The compliance you need for full confidence
- Retro-fit friendly and always upgradeable products

Crestron uses scalable, reliable technologies to provide intelligent workplace solutions that improve productivity and keep costs in check. Leading edge products provide zero-latency uncompressed 4K/60 streaming video, for example, and high-quality audio played through high-definition speakers.

Salamander matches these high-tech electronics with beautifully-designed furniture, stands and carts for an array of fixed and mobile solutions. These delivered maximum benefit of each technology.

SMALL ROOM: HUDDLE STATION

EVERY SPACE IS AN EXTENSION OF YOUR WORKFORCE

You have the talent. We have the flexible designs that can transform any room into a modern, more powerful and productive workspace. Smaller to mid-sized spaces often require close interaction and a certain atmosphere. These modular solutions elegantly bring together the specific needs of your staff with the latest in technology, space maximization and interior design. Your rooms will look better while both colleagues and visitors will work better.

SOLUTION INCLUDES

OUR IDEAL MEETING SIZE IS _____.

Whether you're connecting with partners across the office or the globe, Crestron and Salamander collectively deliver technology and design to bring you closer to your most important resources—each other.

Salamander's expert Design Team can furnish your entire enterprise and match your design elements. Made-to-order solutions can equip one small entry foyer or a mammoth multi-level conference center—and everything in between. Scalable solutions allow you to be nimble and use just what you need at a particular time.

With emphasis on security, Crestron offers reliable, secure global communication technologies, including scalable, easy-to-use videoconferencing systems that feature low-latency, low-bandwidth protocols for a stable connection with someone in the building or overseas. An easy-to-use Chat Feature enables colleagues who are at the airport to join a discussion without digging out a headset or introducing background noise.

**DMPS3-4K-350-C**

3-Series® 4K DigitalMedia™ Presentation System 350

Provides a complete 4K AV presentation control and signal routing solution for boardrooms and classrooms.

**Crestron DM-NVX-350**

DigitalMedia™ 4K60 4:4:4 HDR Network AV Encoder/Decoder Card

A reliable, high-performance AV over IP encoder or decoder that transports 4K60 4:4:4 video over standard Gigabit Ethernet with no perceptible latency or loss of quality.
