

Be the best in class with a blended learning bundle from TIG, your premium tech provider

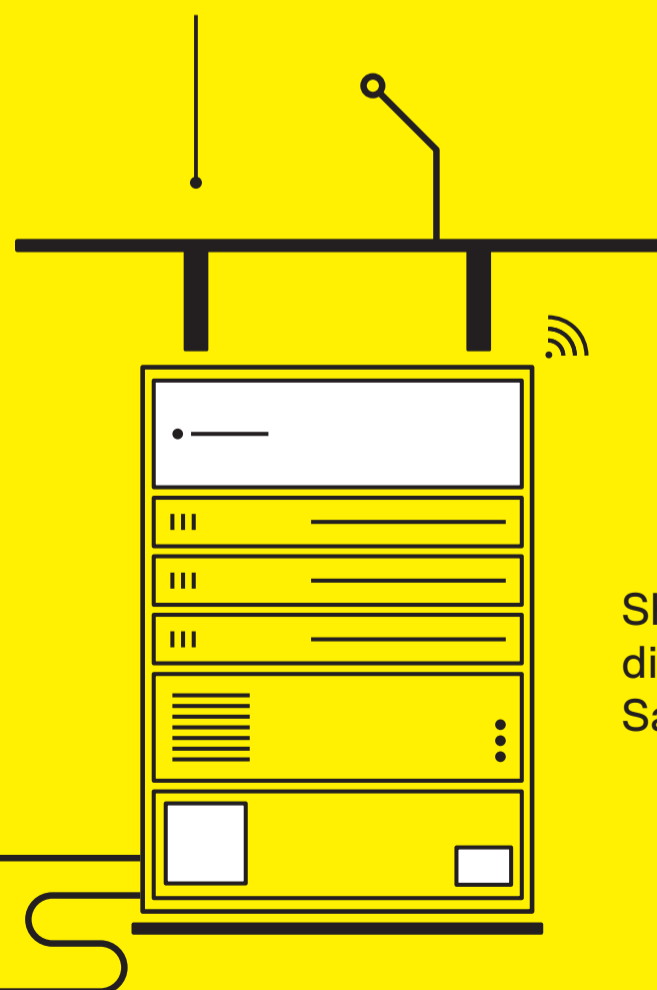

TIG

Technological Innovations Group

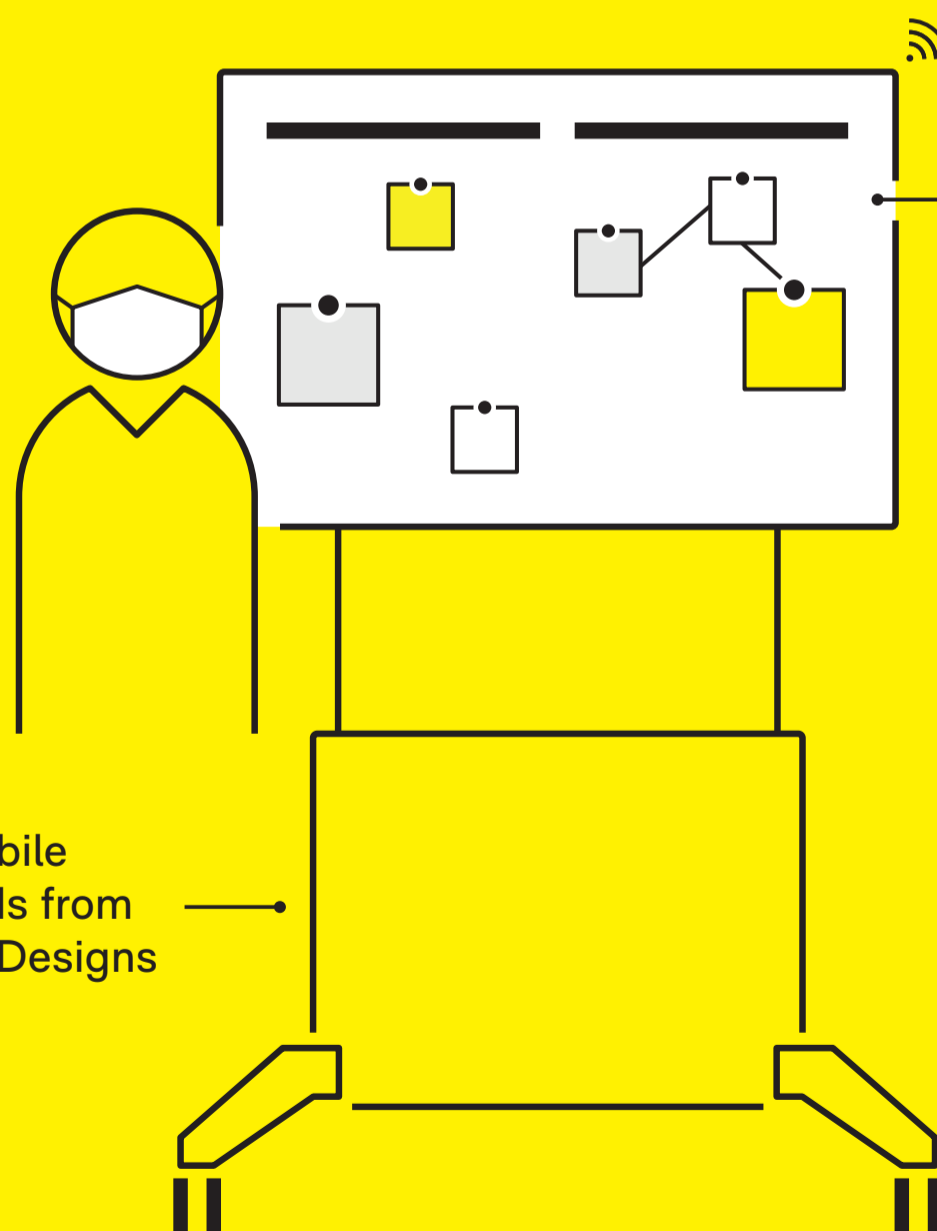

TIG's bundles combine technologies to help overcome today's teaching challenges and master the new era of blended learning. They make teaching spaces smart, future-proof and accessible to all via a smartphone, tablet, laptop or desktop – in class or at home.

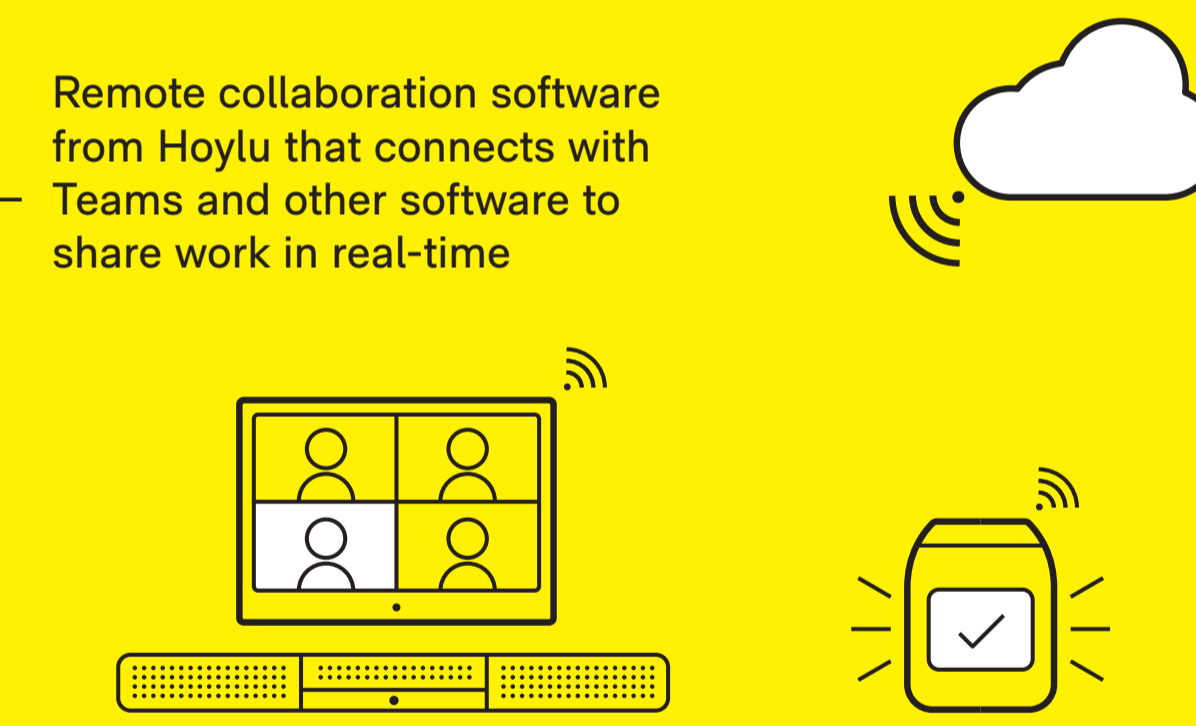

Smart power distribution, switching and monitoring systems from GUDE

Sharable mobile display stands from Salamander Designs

Remote collaboration software from Hoylu that connects with Teams and other software to share work in real-time

Crestron Flex: easy-to-use videoconferencing via Teams, Zoom and more from any device

Desk Signs from Embrava to help manage social distancing
